Engineering Technical Disciplines

Acting as an extension provides your company with the resources you need to complete your technical growth. Your demand for Engineering Technical disciplines will be confidently fulfilled with valuable professionals that are well versed in all technical aspects of Engineering, Manufacturing, Software, Hardware Purchasing, Quality Control, Field Service, Documentation, Production, Assembly and Test.

Industrial Engineering Disciplines

When it comes to upgrading existing facilities or performing grass roots projects in the Industrial, Process, Petro Chemical, Refinery or Pharmaceutical Industries, CSG can support your project from the initial planning phase through basic detailed design procurement & construction with the highest level of professional staff. CSG has the ability to fill technical requirements in the following disciplines: Process & System Control, Stress Analysis, Civil & Structural, Procurement, Mechanical & Piping, Quality Assurance, Electrical & Instrumentation, Planning & Cost and Project Management.

Contract Basis or Direct Placement.

How do you benefit from CSG?

CSG offers unlimited funding to our clients for contract services, thereby alleviating the burden of unemployment insurance, worker's compensation, medical benefits, FICA and disability, thus creating a greater cash flow for project needs.

CSG consistently maintains an increasing reservoir of available candidates from which we make our applicant selections - trained individuals who will meet your professional & technical needs.

Insurance

CSG maintains Public Liability, Worker's Compensation & Fidelity Bonds covering all of its employees. A certificate of insurance will be supplied upon request.

Equal Opportunity

CSG is an equal opportunity employer and conforms to all applicable laws & requirements.
